

Dear All,

It is with deep sorrow and sadness that we share the news that our friend and colleague Sudhakar Ram – Founder Member & Managing Director, unfortunately passed away on Sunday.

As a Promoter of Mastek, his professional legacy is already established and his influence transcends generations. Many people will have respected Sudhakar as a person of great integrity and values and these helped shaped Mastek's value system however, I was also privileged to get to know a little bit more about the person. He was essentially a private person, devoted to his family and although a man of few words, those words when they came were usually profound. He will equally be proud of the how every Mastekeer has risen the challenge under Covid. Sudhakar was the architect of Mastek 4.0 that put empowerment at the heart of our culture and therefore, there is no better way to respect his life than to continue to build on his legacy that enable's Mastek to continue to scale.

As we reflect, remember and grieve for the loss of Sudhakar, please also remember his wife Girija and daughter, Samvitha who will need all our love and support during this difficult time.

RIP Sudhakar.

John Owen | Group CEO
