

## Mastek is a Finalist in three UK IT Industry Awards categories

Mastek has been shortlisted in not one, but three categories of the [UK IT Industry Awards](#) including:

1. Vendor of the Year
2. Digital Project of the Year and
3. IT Service and Support Professional of the Year

Our case for Vendor of the Year is based around nine consecutive quarters of stellar, top and bottom line growth; quantitative benefits for our customers through innovative solutions, and UK-centric investments. All of these achievements are backed by our deep commitment to corporate social responsibility.

Our application development project for our customer, Together an award-winning specialist lender has been shortlisted in the Digital Project of the Year category. Together, achieved significant business growth, an increase in Broker satisfaction and improved efficiencies following Mastek's development of the My Broker Venue portal. An integrated, easy-to-use system, this portal replaces complex product interfaces, and is continually enhanced to meet business needs.

Last, but not the least, our very own Vivek Godyani who leads Mastek's IT Service team at International Personal Finance (IPF), a home credit and digital loan provider is a finalist in the IT Service and Support Professional of the Year category. Vivek helped deliver 100% SLAs at IPF across multiple vendors, geographies and applications.

We look forward to being a winner in all three categories.
