

## **Mastek to Develop Data Management Platform for Monitor, UK's Health Sector Regulator**

15 Apr, 2014

*Mastek, the global enterprise application specialist has been appointed by Monitor, the health sector regulator for England to develop a data management platform.*

15 April 2014 – Mastek, the global enterprise application specialist has been appointed by Monitor, the health sector regulator for England to develop a data management platform. The selection was made through the Government's G-Cloud service following a rigorous procurement process.

The data management platform to be developed using Agile working practices will be a key enabler in ensuring that Monitor can make the health sector work in the interests of patients. Designed to deliver data analysis, data comparison and benchmarking, the data management platform will be used internally by Monitor's economists, analysts and regulatory staff.

The platform will support Monitor in its role to make sure the money taxpayers spend on the NHS delivers as much as possible for patients.

Commenting on the contract award, Prahlad Koti, Vice President – Government & Health, Mastek says, "Our rich heritage in delivering business intelligence solutions is enhanced with an in-depth knowledge of health data. Mastek has developed strong working relationships with the healthcare sector deploying several applications for the NHS including the Secondary User Service and upgrades to their annual Payment by Results application. According to Dominic Carter, Business Development Director – Healthcare, Mastek UK, "The potential benefits of our agile development methodology coupled with our credentials in deploying large-scale data warehousing solutions appealed to Monitor. This contract follows hot on the heels of the Identity and Access Management solution award by the Health and Social Care Information Centre (HSCIC) to Mastek.

### **About Mastek**

A global, enterprise-level technology solutions provider, Mastek combines the strengths of a world class product company with a specialist services organisation.
