

Mastek Secures Three-year Deal to Deliver Digital Services for Together

READING, U.K. – June 19, 2017 – As part of its ambitious growth plans, Together have awarded Mastek a three-year contract to deliver digital transformation services. With over forty years operating in the business of retail and commercial secured lending, Together offers its services to specialist market segments in the UK directly and through a network of brokers.

Mastek has been working with Together for over three years, successfully delivering a programme of digital transformation. This new contract confirms Mastek as the key partner for Together's strategic Application Development and Application Management services. Over the period of the contract, Mastek will provide Digital Transformation, DevOps and Continuous Enhancement Services.

According to Simon Carter, IT Director, Together, "We've been working with Mastek for over three years now and are confident in their technology capabilities and ability to understand our business needs. They continue to help us digitise and streamline our business through automation, by transforming the technology that underpins it."

Prahlad Koti, Managing Director - Mastek UK says, "Our partnership with Together is an affirmation of our vision to help our customers deliver their digital vision. We are energised by the opportunity to partner with Together on its journey of delivering customer delight and look forward to a long term association."

Simon adds, "We have developed a mature operating model with Mastek who are agile in the way that they operate and offer us the option to resize resources based on demand."

About Mastek

Mastek is an agile, digital transformation provider engineering excellence for customers in the UK, US and India. We enable large scale business change programmes through our service offerings, which include agile consulting, digital commerce, BI and analytics, application development and support, and testing. Whether it's creating new applications, modernising existing ones or recovering failing projects, we help enterprises to navigate the digital landscape and stay competitive.
