

## Specialist Lender, Together, Reaps the Rewards of its Digital Transformation Journey with Mastek

*Mastek's services have enabled Together to grow the value of its loan book by 150 per cent in just three years*

03.12.18, Reading: Award-winning specialist lender, Together turned to Mastek, a global IT player and a trusted partner in complex, digital transformation programmes to undertake its digital transformation journey with the aim of supporting rapid company growth.

Owing to limited digital engagement with intermediaries and customers, Together needed to upgrade its technology in order to transform the business. To overcome the challenges involved in time-intensive manual processes, Mastek helped the company replace semi-manual interfaces with a unified broker portal - which supports brokers in every aspect of getting a quote, obtaining a decision in principle and submitting online applications.

Together is now reaping the benefits of its new technology, which has dramatically improved both the speed and ease of service. With Mastek's help, Together's programme of smart change has played a big part in its ability to grow the value of its loan book by 150% in just three years.

Simon Carter, IT Director at Together, said: "The reality is that unless we had transformed, we could not have enabled this period of dramatic growth. No other specialist lender can offer the breadth of products and depth of functionality in a single portal."

Together are now partnering with Mastek on a number of innovation opportunities. As a recognition of this partnership, Together's digital transformation of its broker portal has been shortlisted in the Digital Project of the Year category at the 2018 UK IT Industry Awards.

### About Mastek

Mastek is an enterprise digital transformation specialist that engineers excellence for customers in the UK, US and India. We enable large-scale business change programmes through our service offerings, which include application development, support and testing, BI and analytics, agile consulting and digital commerce. Whether it's creating new applications, modernising existing ones or recovering

failing projects, we help enterprises to navigate the digital landscape and stay competitive. Learn more by visiting [www.mastek.com](http://www.mastek.com)
