

FOR IMMEDIATE RELEASE

Mastek Inc. Builds on Digital Transformation Services in North America

The name change reflects the evolving business model and global service lines

Dallas, Texas – October 1, 2018

Digility Inc. has been renamed to Mastek Inc. effective immediately. Created to serve the U.S. market in 2015, the name change allows the organization to build upon the global momentum of its parent company, Mastek Limited. Mastek Limited is a publicly held (NYSE: MASTEK; BSE: 523704) IT services firm with global operations providing application development, maintenance and support, BI and analytics, digital commerce, testing, and agile consulting to organizations worldwide.

“Over the past 36 years, Mastek has designed and delivered modern technology solutions with transformative business impact,” states Mastek Group CEO, John Owen. “With our recent rebranding, it was an appropriate time to revisit our global presence and determine how to best meet the needs of all customers. Mastek Inc. will reinforce our unwavering commitment to deliver the highest quality services and make it easier for our customers to recognize the established values of Mastek as we enter a new market.”

Mastek Limited continues to demonstrate positive gains as evidenced by an employee count of more than 2,100 and nine consecutive quarters of growth with revenue increases of 89%, and EBITDA of 250%. Mastek Limited includes Mastek Inc. and Mastek UK as well as agile and lean delivery services firm [IndigoBlue](#), and digital commerce transformation firm [TAISTech](#). Mastek is reinforcing its commitment to North America through Mastek Inc. by enabling digital commerce transformation for B2B and B2C customers such as Petmate, CORT and SEI.

“We define digital commerce as any touchpoint between a business and its end user. Whether retail, financial services or vendor and employee relationships, the digital mandate requires connecting information with an optimized user experience,” says Mastek Inc. CEO, Bob King. “We are eager to bring the full expertise of Mastek to our customers in North America as we empower stronger connections across business.”

The name change is effective immediately and will be implemented across the company's assets and services through the remainder of the 2018 calendar year.
