

Mastek Wins New Business from London Metropolitan University to Deliver High-Performing Digital Solution

Reading, UK, July 14, 2023: Mastek (MASTEK; BSE: 523704), a Turnkey & Trusted Digital Engineering & Cloud Transformation Partner, today announced that it has entered into a new partnership with London Metropolitan University to deliver Oracle Cloud. Together they will replace their current financials, procurement, planning, HR, learning, and payroll solutions with an integrated cloud-based solution powered by Oracle Cloud and MS Azure. With its multicultural and socially diverse atmosphere, London Met has been recognised in The Times and Sunday Times Good University Guide 2023 for ranking among the top-ten universities in the UK for teaching quality.

This back-office transformation programme seeks to deliver greater automation, improved business processes, and a modern, seamless user experience to its Students, Academics, and the wider user community. Under this programme, Mastek will migrate the University's legacy digital infrastructure to a vast ecosystem of Oracle Cloud Modules that include [Oracle Enterprise Resource Planning \(ERP\)](#), [Human Capital Management \(HCM\)](#), [Enterprise Performance Management \(EPM\)](#), and [Supply Chain Management \(SCM\)](#).

The London Metropolitan University will be able to gauge the efficiency of every business function while eliminating manual workloads and creating greater capacity to add value to both the academic and student experience. Also, the newly designed infrastructure will be compatible with workflows between Oracle implementations and their line of business systems. In addition, these will support the University in migrating the legacy data into an MS Azure data warehouse. Being a decade-old [Oracle partner](#) with deep expertise in digitally transforming the UK public sector, Mastek was the University's preferred choice of technology execution partner.

"We are delighted to collaborate with London Metropolitan University to optimize their digital capabilities and empower them to make data-driven decision making. We bring our cross-technology expertise, combining Microsoft Azure and Oracle Cloud capabilities, to deliver the desired outcomes. With this partnership, we are confident that London Metropolitan University will be able to deliver a seamless experience to its students and wider community of academicians," said **Abhishek Singh, President of UKI & Europe at Mastek.**

"Oracle and Mastek provide the University with the perfect combination – a market-leading cloud solution to modernise and transform our user experience and operations across our critical HR, Payroll, and Finance services, along with an expert implementation partner with the skills and energy to support London Met's strategic aspirations. Alongside our experienced and highly motivated internal team, I'm extremely confident that together we will deliver our objectives and give the University a strategic solution we can be truly proud of as the next major step in our ongoing Digital Transformation," said **Will Hopson-Hill, Director of Digital Transformation - London Metropolitan University.**

Trust. Value. Velocity
